Summary Notes: PDF_Test

Overview

The **Z■scheme** shows the step■wise loss of energy from photosystem II to photosystem I.

- Autotrophic organisms capture light—energy.
- Temperature & light—intensity affect photosynthesis.

SLIDE 1: Title - The Z■scheme in Photosynthesis

Subtitle: Step■wise energy transfer in plants.

- Point 1: The Z■scheme explains electron flow.
- Point 2: Photosystems II & I work together.
